Wash with soap and water. If skin irritation occurs: Get medical attention.
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if you feel unwell.

General Information

Treat symptomatically.

Section 5 - Fire-fighting measures

Suitable extinguishing media	Product does not support combustion, Use extinguishing agent suitable for type of surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Dried product is capable of burning. Combustion products are toxic.
Special protective equipment and precautions for firefighters	Wear MSHA/NIOSH approved self-contained breathing apparatus (SCBA) and full protective gear. Cool fire-exposed containers with water spray.
Fire-fighting equipment /instructions	Move containers from fire area if you can do so without risk.
General fire hazards Specific Methods	Hazardous Combustion Products may include Carbon monoxide, carbon dioxide and other toxic gases or vapors. No unusual fire or explosion hazards noted.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Avoid contact with skin, eyes or clothing. Use personal protective equipment as required.
Methods and materials for containment and cleaning up	Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see Section 13).
Environmental precautions	Do not rinse spill onto the ground, into storm sewers or bodies of water.
	Section 7 - Handling and storage
Precautions for safe handling	Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly after handling.
Conditions for safe storage, including any incompatibilities	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep from freezing.
	Section 8 - Exposure control/personal protection
Occupational exposure limits	None established.
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Provide good general ventilation. If work practices generate dust, fumes, gas, vapors or mists which expose workers to chemicals above the occupational exposure limits, local exhaust ventilation or other engineering controls should be considered.
Individual protection measures, su	uch as personal protective equipment
Eye/face protection	Not required with expected use.
Skin protection	Not required with expected use
Hand protection	Not required with expected use.
Respiratory protection	Not required with expected use. If occupational exposure limits are exceeded or respiratory irritation occurs, use of a NIOSH/MSHA approved respirator suitable for the use-conditions and chemicals in Section 3 should be considered.
Thermal hazards	Not required under normal use. Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
